1 About this Certification

The GAICC ISO/IEC 42001 Foundation confirms awareness-level competence in AI governance and the ISO/IEC 42001 AI Management System (AIMS): its purpose, structure and core concepts.

Who it is for: Newcomers to AI governance; a prerequisite-level entry point to the Internal Auditor, Lead Implementer and Lead Auditor pathways.

2 Eligibility & Prerequisites

There are no education or experience prerequisites for entry. This certification is suitable for anyone beginning in AI governance. Formal training: completion of at least 16 contact hours of structured ISO/IEC 42001 fundamentals training delivered by GAICC-authorised providers or equivalent recognised institutions. Students can also fulfil this requirement by completing GAICC self-paced courses.

Certification is open to all eligible candidates without discrimination. Reasonable adjustments are available (Section 11).

3 The Exam at a Glance

Item	Detail
Total questions	40 scored
Format	40 single-answer multiple choice (4 options A–D)
Time allowed	60 minutes
Pass mark	70% (provisional; confirmed per exam by a modified-Angoff standard-setting study)
Delivery	Online AI-proctored or approved test-centre
Open book	No — closed book
Languages	English (other languages on request)
Attempts	One attempt per registration; resits per the retake policy

4 What the Exam Tests

The exam is built to the Examination Content Outline (ECO). Domains and approximate weightings:

#	Domain	Weight
I	Fundamentals of AI Governance & the ISO/IEC 42001 Framework	40%
II	Core Components of the AIMS	40%
III	Responsible AI, Ethics & Stakeholder Awareness	20%
Total		100%

Weightings are approximate and may vary slightly by form. The current ECO is the authoritative blueprint.

5 Booking, Identity & Exam-Day Conduct

- Book through the GAICC learning hub; you will receive joining instructions and system-check details.
- Have government-issued photo ID ready for identity verification before the exam starts.
- Ensure a quiet, private space and a stable internet connection for online proctoring.
- No notes, devices or assistance are permitted (closed book). Breaks are not permitted unless an approved adjustment applies.

6 Proctoring & Exam Security

Online exams are proctored to protect exam integrity and the value of the credential. Proctoring may use automated and / or live monitoring; candidates consent to proctoring as part of booking. Examination content is confidential and may not be copied, recorded or shared; doing so is misconduct and may lead to result invalidation and withdrawal of certification. GAICC's use of any AI in proctoring is governed by its AI Use Register and AI disclosure.

7 Results & Feedback

Results are reported on completion: overall score, pass / fail status, and per-domain performance feedback. Provisional results may be confirmed after a standard post-exam integrity review. Successful candidates receive a certificate and a digital badge.

8 Retake Policy

A candidate who does not pass may resit. One attempt is included per registration; a discounted re-examination fee applies to each resit. A minimum 30-day interval applies between attempts, and up to two resits are permitted within a 12-month period. After that, candidates retake under a new registration.

9 Fees

Fees are shown in US dollars and are payable before the examination. GAICC operates an optional annual-membership model; the member rate below applies to candidates who already hold a current GAICC membership. Membership is purchased separately and is not included in the examination fee.

Item	Fee
GAICC Annual Membership	\$99 / 12 months
Examination fee — non-member / member	\$199 / \$99
Renewal & re-examination fees	Published annually at www.gaicc.org

Refunds and transfers: requests are handled under GAICC's published refund and transfer policy; fees are generally non-refundable once exam access is issued.

10 Certification, Validity & Recertification

The certification is valid for three years from the date of certification. To maintain it, the certified person completes 40 hours of continuing professional development (CPD) over the three-year cycle, reaffirms the GAICC Code of Ethics, and remains in good standing. CPD is allocated as:

CPD category	Activity	Per 3-year cycle
Learning	Courses, webinars, conferences, structured study	15 hours
Practice	Applied work in the certified domain	15 hours
Contribution	Writing, presenting, mentoring, committee / standards work	5 hours
Elective	Other relevant professional development	5 hours
Total		40 hours

Where CPD evidence is insufficient, or a certification has lapsed beyond the grace period, or the standard or scheme has changed materially, re-examination is required. A three-month grace period applies after expiry. This mirrors the GAICC Recertification Procedure, which applies consistently across all GAICC certifications.

11 Reasonable Adjustments & Accessibility

Candidates who need a reasonable adjustment (for example extra time or assistive technology) should request it at booking with supporting information. GAICC accommodates legitimate needs while preserving exam security and assessment integrity.

12 Use of the Certificate & the GAICC Marks

Certified persons may state that they hold the certification while it is valid and use the GAICC certification mark in accordance with the Use of Certificates and Marks procedure. The certification applies to the named individual, is not transferable, and must not be used misleadingly or to imply accreditation that has not been granted. Lapsed or withdrawn certificants must cease use of the certification and marks.

13 Code of Ethics

Candidates and certified persons agree to the GAICC Code of Ethics — acting with integrity, competence and objectivity, protecting confidential information, and using the credential honestly. Breaches may lead to withdrawal of certification.

14 Appeals, Complaints & Misconduct

A candidate may appeal a certification decision, and anyone may raise a complaint, through GAICC's Appeals and Complaints process; appeals are handled impartially by people not involved in the original decision. Suspected exam misconduct is investigated and may result in result invalidation and withdrawal of certification.

15 Privacy & Contact

GAICC processes candidate personal information solely to deliver certification and to demonstrate the integrity and impartiality of the scheme, in line with its privacy obligations.
